High Marks Enrichment Programs

Personalized Tutoring (1 student)

Our experienced and supportive tutors work closely with their students to help them achieve the greatest academic success possible. Tutoring sessions can include homework support, test preparation, number drills, worksheets, problem solving exercises, essay writing, essay planning, reading comprehension and enrichment activities all prepared in accordance with the student's needs. Our students are always thrilled at the improvement in their academic skills and understanding after only a few sessions. And, as their test results at school improve, their confidence and self-esteem soars.

Tutoring hours can be used at any time, but the vast majority of students schedule a regular two-hour lesson with a regular tutor once a week: For example, Wednesdays 4:30-6:30 pm, or Saturday 12:00-14:00 pm. Our highly qualified tutors are available for all Mathematics courses, Science, Chemistry, Biology, Physics, English and Essay Writing.

- One Hour \$70
- 10 Hour Package \$600
- 20 Hour Package \$1100

Paired Tutoring (2 students)

Bring a friend or sibling and take advantage of our great *paired* tutoring rates. Students can work on the same or different material if they like.

- One Hour \$40
- 10 Hour Package \$350
- 20 Hour Package \$600

Small Group Tutoring (3-6 students)

- 10 Hour Package \$300
- 20 Hour Package \$500

Curriculum Tutoring Program

TES online course is the perfect tutoring materials for high school students. Students can learn curriculum courses in advance with the help of our OCT teachers. Homeworks, assignments, quiz and exams are all pretty much the same as the curriculum at their home school.

Small Group Tutoring (maximum 6 students)

- 20 Hour class \$500
